Bike MS Ride Guide

Cape Cod Getaway

Saturday-Sunday, June 23-24, 2012

Welcome to the 2012 Bike MS Cape Cod Getaway presented by EMD Serono & Pfizer, hosted by the Greater New England Chapter of the National Multiple Sclerosis Society. The Greater New England Chapter serves 19,000 individuals and their families who are affected by multiple sclerosis in four New England states: Maine, Massachusetts, New Hampshire, and Vermont. CCG is one of the chapter's largest fundraising events.

The 2011 Bike MS Cape Cod Getaway was great in so many ways. The dedication you all have to find a cure for MS has inspired us here at the National MS Society to keep pushing and to aim high. Your fundraising truly helped the MS community by providing funding for programs, home modifications, personal care attendants, research, and more. You also helped to give hope to those living with MS and their families.

We are excited to have your support this year, and we are looking forward to another fantastic Bike MS ride! Last year's Getaway raised more than \$2.4 million with 2,200 participants. In 2012, we are aiming higher again, with the goal of reaching \$2.55 million and 2,100 riders. With your help, we will make it happen! For every dollar of fundraising and sponsorship raised during the Cape Cod Getaway, 85 cents goes directly to MS education, support, advocacy, services, and research.

Bike MS: Cape Cod Getaway is an opportunity to take stock of what we've accomplished together in the movement to create a world free of MS. While there is still no cure, there have been great advances in diagnosis and treatment, and in our understanding of the disease in terms of gender and genetics and immunology and nervous system repair and protection, and even pediatric MS.

As you embark on your two-day challenge in June, remember those who face the daily, lifelong challenges of multiple sclerosis. Your participation and fund-raising accomplishments are essential to enabling people with MS to continue moving forward. On behalf of the National Multiple Sclerosis Society, Greater New England Chapter, and the thousands living with MS, thank you.

Here's to a great 2012!

Joel Richards
Associate Vice President of Development

For cyclists and all those seeking a personal challenge and a world free of MS, Bike MS is the premier fundraising cycling series in the nation. With a choice of over 100 extraordinary rides, the Bike MS experience is the ride of your life.

Early Packet Pick-Up

This year's Early Packet Pick-up (EPP) is on **Friday, June 22**, from 4-9 p.m. at the Boston Marriott Quincy. Have a stress-free morning before the ride, say hello to the staff and meet fellow riders by picking up your packet early. At the EPP, you can drop-off all your last minute donations, pick-up your bib number, grab some food, and get everything out of the way so that on Saturday morning all you need to do is line-up and ride.

We are also hosting a few Early Packet Pick-Up nights from 5-7 p.m. at our Waltham office on the following dates: **Tuesday, June 12, Thursday, June 14, Monday, June 18, and Wednesday, June 20.**

Pre-ride prep – bike tune/check

We recommend that you have your bike tuned at one of the Bike MS supporting bike shops (see page 13) before the ride. All cyclists should carry an extra tube, a pump, and patch kit. You may not know how to repair a puncture, but another cyclist may be able to help you.

Training

Bike MS rides can be challenging, but a little training and preparation make the ride easier and more enjoyable. Here are some simple steps to bicycling success: fitness training and sports nutrition.

Bike MS rides are fun and achievable for nearly every skill level. As a starting point, less experienced riders should consider the steps listed below to help prepare.

Check with your bike shop

The best source for bicycling information is your local bike shop. Make sure your bike is properly fitted! Official bike shop partners are a good source for any cycling question. (see page 13)

Participate in team or bike shop training rides

You'll have a much safer and more enjoyable experience after you've spent time in the saddle during organized rides, learning the ins and outs of group cycling. Contact one of our bike shops for more information on local rides or visit the training section at www.bikeMSgnc.org for a listing of training rides.

Keep track of your mileage

A key part of training is assessing how you've improved. Adding a bicycle computer to your bike is a good step. Basic bicycle computers can monitor your distance, ride time, and speed.

Start with short rides

Keep your first few rides of the year short and easy. 30-60 minutes of riding get you used to sitting on the saddle without over-tiring. Don't worry about speed or distance

on these rides. The purpose is to become comfortable on the bike and to gain basic cardiovascular fitness.

Add in occasional longer rides

After becoming comfortable with riding for an hour or so, attempt an endurance day of two or more hours once a week. Try to maintain the same pace established during the shorter rides, but slow down if it is necessary to ride a longer time. Taking rest stops every hour can help rejuvenate you on longer rides. Be sure to eat and drink enough to avoid depleting your energy reserves (known as bonking). The purpose at this stage is to gain confidence in your ability to do long rides and to improve your cardiovascular fitness.

For more advanced training, add hill intervals

After mastering the basics, challenge yourself with more advanced training. After warming up for at least 20 minutes, find a hill you can climb in 10-20 minutes without totally exhausting yourself. After the hill, recover on the way down, and then go up again. As your fitness improves, add more repeats. The power and stamina developed with hill work helps you to tackle the larger hills on the route.

Sports Nutrition

Eating and drinking right is just as key an element of training for and riding in Bike MS rides as is the number of miles a rider spends on a bike. The best way to take charge of your body is to use common sense. However, always consult your physician before starting any training program.

It is important to be well hydrated before, during, and after a ride. If you do not drink enough fluids, dehydration results, causing nausea, muscle cramps, chills, and lack of motivation. Dehydration could lead to heat stroke, a serious medical condition.

To prevent dehydration, we recommend you

cont. on next page

use the following general guidelines: on all rides, you should drink 4 to 8 ounces of water or carbohydrate drinks every 15 to 30 minutes. Drink more if it's hot or humid, or if you're really riding hard. On rides over two hours in duration, carbohydrate replacement drinks empty more slowly from the stomach, so the total amount you drink should be increased to 5 to 10 ounces every 15 to 30 minutes. These energy drinks help increase your performance, reduce cramps, and lessen the possibility of heat stroke. In addition, energy bars help you avoid the infamous "BONK" that many cyclists experience on longer rides. You should eat on long rides. Good food choices include energy bars and fruit.

Rider Etiquette/Safety Cycling Etiquette

- Obey all traffic signs and signals. This includes traffic lights and stop signs. If in doubt, check www.massbike.org/bikelaw
- Communicate with your fellow riders using proper cycling terms, such as "On your left," "Car back," etc. (see pages 5-6)
- Ride single file, please! Stay to the right, except to pass. Pass on the left side only. Do not pass on the right.
- Do not cross center line in roadway, regardless of passing zone.
- Use proper signals when turning. Make left turns from the center of the road or left turn lane.
- Cross railroad tracks perpendicular to the tracks.
- Ride in control of your bike at all times. You should be able to stop within a reasonable distance.
- Ride defensively and predictably, with consideration for your fellow riders. If you must stop, move off the road to the right.
- Don't use aero bars when in a group.
- Point out and call out any road hazards ahead. These include potholes, drain grates, stray animals, opening car doors, bigger sticks or stones, parked cars, etc.
- Do not overlap wheels of cyclist ahead of you. A slight direction change or gust of wind could easily cause you to touch wheels and fall.
- Pedal down hill when you are at the front of the bunch. Cyclists dislike having to ride under brakes.
- When climbing hills, avoid following a wheel too closely. Many riders often lose their momentum when rising out of the saddle on a hill which can cause a sudden deceleration. This can catch a rider who is following too closely, resulting in a fall from a wheel touch.
- Follow the instructions of **MS Ride Leaders**. Ride Leaders are registered riders who assist with safety and communication along the route. They are distinguished by their unique bike jerseys.
- Also check League of American Bicyclists website: bikeleague.org

Support Vehicles (SAG)

To signal Support And Gear vehicles, follow these three steps:

1. **Off Road.** Move off the path.
2. **Off Bike.** Stand or sit nearby.
3. **Signal to SAG.**
 - Use thumbs down for help needed.
 - If resting, give thumbs up sign.

Bike MS Tips - Vocal Warnings

- **Slowing** - When someone yells out "Slowing," this means that there is something that is causing the pack to slow down. This can be anything from a light, a slower pack of bikes, or a car up ahead. In any event, prepare to slow down. Tap your brakes and repeat the yell "Slowing." This is to indicate to others that you've heard them and you are also slowing. This also alert those behind you that you are slowing down.
- **Stopping** - When someone yells out "Stopping," this means that there is something that is causing the pack to stop. This can be anything from a light, a slower pack of bikes, a stop sign, or a car up ahead. In any event, prepare to stop. Tap your brakes and repeat the yell "Stopping." It's VERY IMPORTANT not to slam on your brakes, especially if there are others behind you!!
- **Hold your line** - When someone yells, "Hold your line," this means that you need to stay in a straight line as best you can. In most cases, the person yelling this out to you is attempting to pass. If you swing out or if you don't keep your bike steady, you could cause the other rider trouble.
- **On your Left** - When someone yells, "On your Left," this means that they are passing you on your left. No need to take this personally. Let them pass as they have the right of way. You should never hear "On your Right." That is, a cyclist should never pass on the right. However, there are many cyclists with varying experience. Be on the look out for those who pass on your right. If someone does this, *kindly* remind him or her that they should pass on the left. Also, it is common courtesy to say "Thank You" to the person yelling "on your left." This indicates that you've heard them.
- **Car Up** - When someone yells, "Car Up," this means that there is a car up front. It is intended to be a verbal caution indicating that a stop may be necessary. If you hear this, repeat the call so that others know that you are aware of the vehicle up front. It is also common courtesy to repeat this so that others behind you know about the car.
- **Car Back** - When someone yells, "Car Back," this means that there is a car behind you. It is intended to be a verbal caution indicating that a car may be passing from behind. It is also common courtesy to repeat this so that others in front of you know about the car.

Bike MS Champion

Bike MS Champions connects Bike MS cyclists to people living with MS. Many cyclists who ride in one of the Bike MS Rides, don't personally know anyone who has MS. Creating relationships between cyclists and people with MS helps motivate, inspire, raise awareness, and communicate the importance of finding a cure. Cyclists who choose to participate are connected with their Champion through a bright blue bandana, signed by the Champion. Cyclists keep this bandana with

them throughout the ride. For many cyclists, MS Champions creates that extra motivation to reach the finish line. Many MS Champions like to write inspirational messages or words of thanks to their cyclists. Others prefer to share their personal experiences living with multiple sclerosis in a note to their rider, through email messages, over the telephone or in person. To join the Bike MS Champions program, please contact Liz at 508-759-0402 or Liz.Strawn@nmss.org

Start

Saturday, June 23 at UMass Boston Campus Center

Time Line

- 5:30 a.m. Registration opens
- 6:00 a.m. Team photos start
- 7:00 a.m. Line-up in corrals
- 7:30 a.m. Cape Cod Getaway starts!

Directions

From the North:

Take Interstate 93 South through Boston to exit 15 (JFK Library/South Boston/Dorchester) and follow the University of Massachusetts signs along Columbia Road and Morrissey Boulevard to the campus.

From the South:

Take Interstate 93 North to exit 14 (JFK Library/Morrissey Boulevard) and follow Morrissey Boulevard north to the campus.

From the West:

Take the Massachusetts Turnpike (Interstate 90) east to Interstate 93. Take I-93 South one mile to exit 15 (JFK Library/South Boston/Dorchester) and follow the University of Massachusetts signs along Columbia Road and Morrissey Boulevard to the campus.

Junior Waivers

All participants under the age of 18 must have a signed and notarized waiver, and must be accompanied by a parent or guardian unless they have a signed and notarized Authorization of Responsibility waiver. Both forms can be found in the Document Downloads section at www.bikeMSgne.org.

Parking

Parking is free and there is space for everyone. Parking lot attendants direct you when you arrive. You may leave your car here for the duration of the ride.

Registration and Luggage Drop

For those who did not attend an early packet pickup, begin at registration. At this point, drop off fundraising and receive your Rider Packet. Included are your event credentials (see below), luggage

tags and other information. You will get your prize sheets at this time, which you take to the prize tables and collect your fundraising prizes.

Using your event credentials

New Numbers on One Sheet: Returning riders will notice that all credentials, not including wristbands, are supplied on one adhesive backed sheet. Included on this sheet are: 2 jersey numbers, 1 luggage tag, 1 helmet number, 1 bike tag and 1 sleeping bag/tent number.

Wristbands: Bike MS wristbands must be worn at all times throughout the weekend. Wristbands are color-coded to match route markers and allow you access to rest stops, food areas and transportation. Printed on each wristband is the Bike MS emergency contact telephone number (Net Control).

Jersey Number: New for 2012 are adhesive backed numbers. There are two supplied; one for Saturday, one for Sunday. No safety pins needed.

Helmet Number: Place adhesive number on front of helmet. This is the key identification for photographers, allowing them to sort photographs by rider number and put photos of you on a webpage for your browsing.

Bike Number: Wrap around front or back brake cable and use adhesive backing to stick to itself.

Luggage Tags: Wrap the supplied luggage tag around the handles of your bag. If you have a tent or sleeping bag, use the additional number provided.

On the Road

Saturday: all routes close at 4 p.m. Sunday: all routes close at 2:30 p.m.

Rest Stops

To help you along the route, we have rest stops every 12 miles, on average. The stops are manned by volunteers, bike mechanics and medical help and stocked with water, Gatorade, fruit, energy bars and other healthy snacks. Lunch stops have sandwiches. Use your time at the rest stops to fill your bottles or hydration pack, but don't stay too long. After about 15 minutes your body and muscles cool down and it takes more energy to get back to your regular riding pace.

SAG

Support And Gear vehicles drive between rest stops. SAG vehicles are identified by orange flags on the passenger side windows. SAG vehicles stop if you are on the side of the road. If you do not need assistance give the SAG vehicle a "thumbs up."

SAG vehicles are equipped with bike racks, basic bike repair kits, medical kits, water and snacks. If you cannot continue to ride, a SAG vehicle will give you a ride to the next rest stop.

If you do not see a SAG vehicle within a few minutes and need assistance, call the net control number on your wristband.

Ride Leader

Ride Leaders perform two important functions at Bike MS rides. As cyclists on the road, they act as ambassadors of good will and safety.

As representatives of the National MS Society, Ride Leaders are encouraged to talk to the general public, store owners, and bystanders along the route and thank cyclists for participating in the ride. Ride Leaders should be prepared to answer general questions about the ride.

Ride Leaders act as Safety Ambassadors by sharing cycling advice and encouraging safe cycling behaviors. Ride Leaders may also perform the role of first responders at the accident scenes along the ride routes and identify unsafe cyclists to ride officials.

Route

The route is marked with blue and orange arrows. The colors of the arrows correspond with your wristband color. The 2012 route cue sheets are available on the CCG homepage if you would like to review the route.

Team photos

Team pictures are taken Saturday morning at Marina Bay. Team pictures are great to use in thank you letters and next year's donation requests. Get your team together and strike a pose!
